- G-Force alert (Video clip & SMS)
- Harsh Breaking
- Driver Behaviour Analysis
- Ignition sensor
- Battery disconnect alert
- Speed and night-time alert
- Border patrol alert.
- Idling & Towing alert

Driver Identification

Driver Monitoring

Associate each driver with a specific vehicle and driving events

Blue Driver ID Tag

- A buzzer validates the driver when ID tag is inserted into the code plug socket in the vehicle
- No beep will sound if an invalid or incorrectly programmed code plug is inserted
- The red LED on the code plug socket will flash until a valid driver code plug is inserted
- The blue driver tag is compatible with the Premium and Essential solutions to identify drivers

Driver Identification

Ensures that a specific driver can be associated with a specific vehicle/trip

A valid driver ID tag will transmit all the driver information for the specific trip

Enables specific drivers to be associate with driving violations and events

Data from drivers can be used in driver training and incentive programmes

Extended driver identification information can be supported e.g. drivers license validity

Fleet Manager Mobile App

Manage your fleet from the palm of your hand

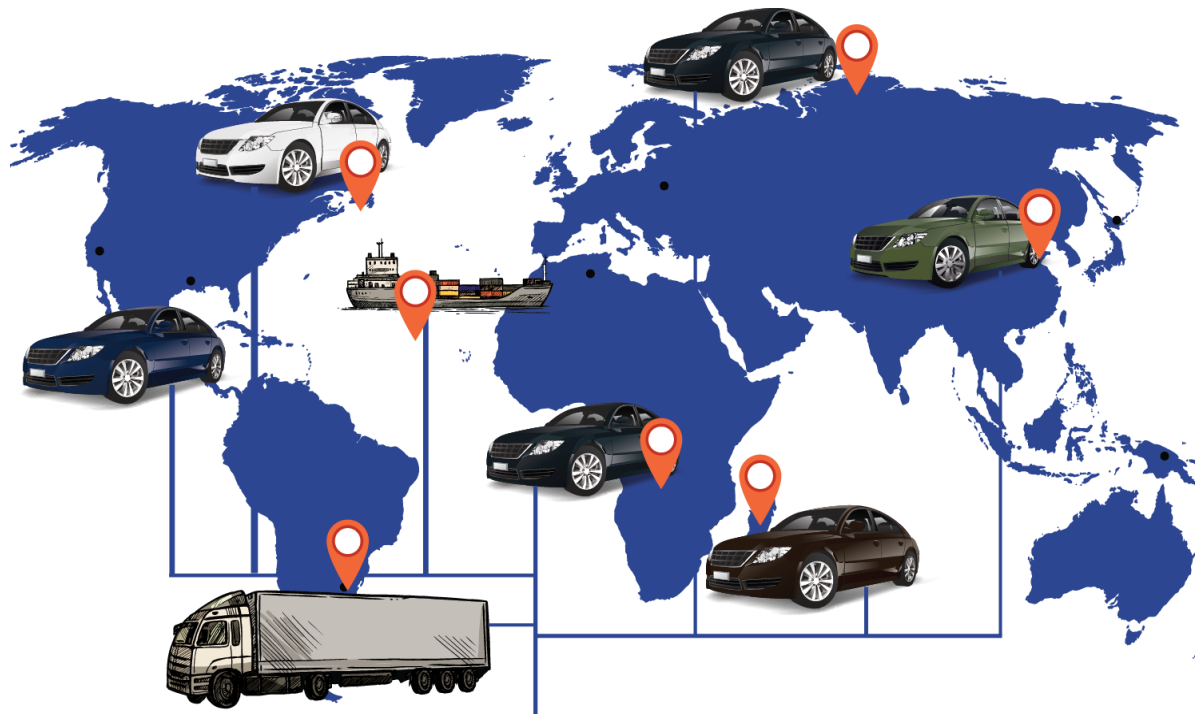

On-board Computer

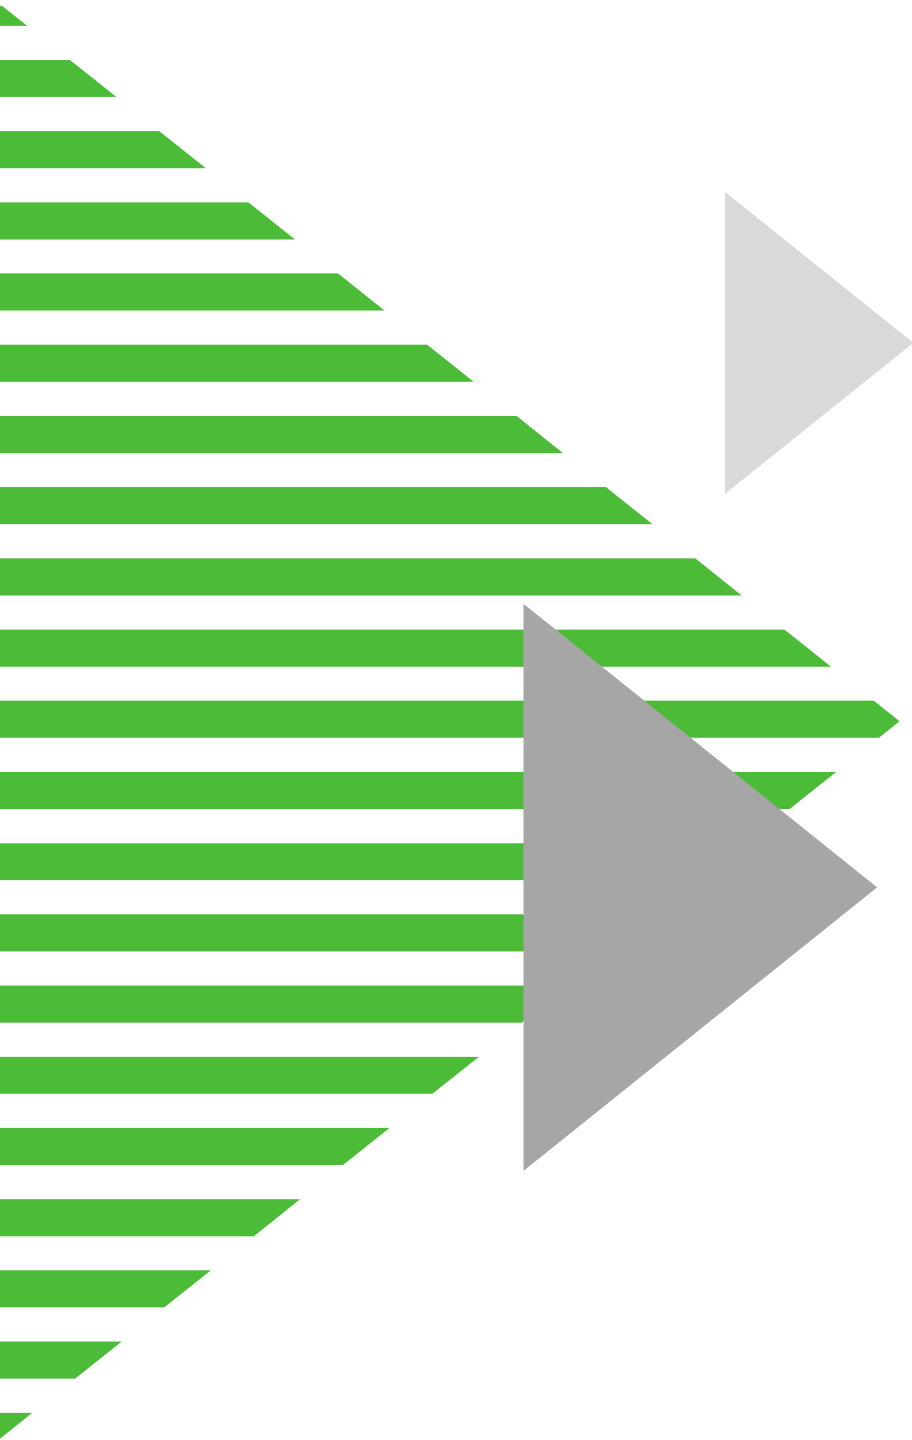

- Enables real-time management for immediate action to be taken
- Manage your fleet from a tablet or mobile phone
- Provides real-time view of assets' movements
- View Drivers, Assets, Locations, Trips, Events and more
- Multi-lingual & time zone aware
- Ability to view camera notifications
- Attractive and intuitive UI

efficiency • safety • compliance • security

Report My Driving

Driving behaviour monitoring by other road users

Report My Driving

Safer roads, more efficient fleets, and accountable drivers

- **Uses feedback from other road users to improve your drivers' behaviour**
- **Ideal for any kind and size of fleet**
- **Affordable and effective**
- **Encourages driver self-awareness and improvement**
- **Helps to identify high-risk drivers that require additional training and/or counselling**
- **Enables good drivers to be recognised and rewarded**
- **Displays responsible risk management and enhances brand reputation**

REPORT MY DRIVING
